Overview

Database Management System (DBMS)

Course

- 3 sks theory, 1 sks lab
- Class : Wednesday 123 at B4.04
- Course page :
  - http://dww_ok.staff.uns.ac.id
- Lab will be assisted by my assistants, will be started after Ied holiday

  They are: Laura, Nurcahya, Teno(2009)

MyClass Rule

- I dont have definite rules actually …
- But U have responsibilities: Study smart and hard, try to enjoy the class and course, practice as good as U can, participate and initiate the class discussion, DO UR OWN WORK
- 1 student must take responsibility to make LCD ready each class session, and 1 the other as class coo

Goals

- Enjoy DBMS as one of the basic course in Informatics

- Understand the basic concept of database

- Understand and have skill to design,analys and implement DBMS

- Understand and have skill in using DBMS tools

Grade

- Asgnmnts : 20 %
- Quiz : 20 %
- Final Exam : 30 %
- Final Project and presentation (group)
  : 30 %

Resources

- ElMasri and Navathe, Fundamental of Database System
- Any kind of books about DBMS
- I also use other few books
- Many online official resources → will be updated

Need to prepare

- Make a group (5) → for discussion, asignmnt, etc → then email me. dww.okok@gmail.com

- Prepare the tools → will be guided by assistants

- Books → database bible

Pretest

- What do U know about Database Management System

- Have ever U used tools of DBMS?and what

- Do you know programming language?have u ever used it?and what?
